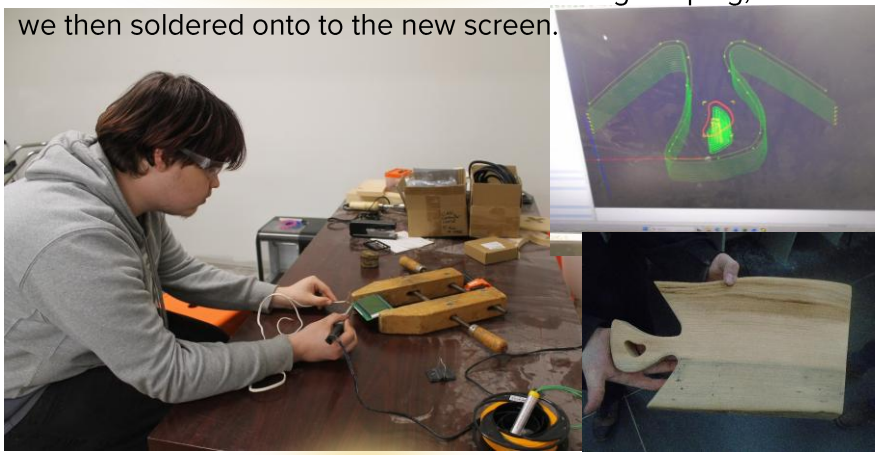
Computer Aided Drafting CNC

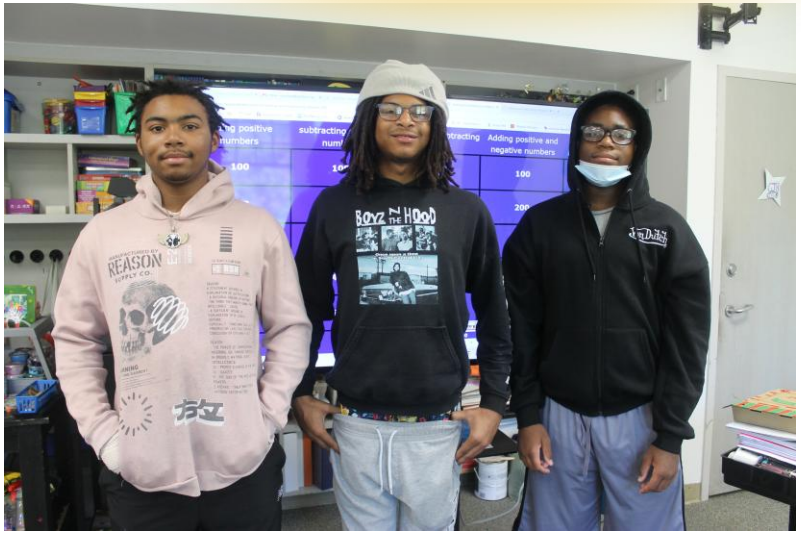
Eli was repairing the screen on the CNC machine. The controller screen did not display all axis lines, making the CNC machine difficult to set up. The new screen did not come with a plug that connects into the circuit board, so we had to de-solder the plug from the broken screen. Pictured here is Eli de-soldering the plug, which we then soldered onto to the new screen.

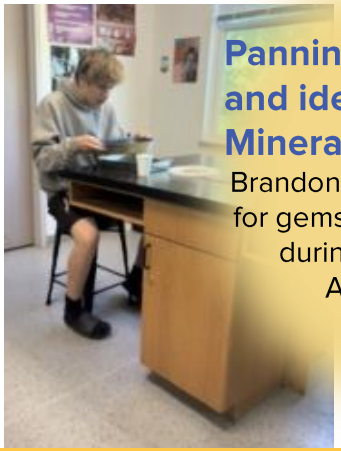


Jeopardy!

CDRC Program

Miguel, Ja'Cory and Knowledge practiced interactively with the online contest.





Panning for and identifying Minerals

Brandon is panning for gems and rocks during a unit on Archeology.

Maple Production

Aiden and Chris made calculations and operated our wood splitter.

Math Problem Solving with a Twist

Middle Schoolers designed a Twister®-style board game where colored math problem cards matched the different colored circles on the floor.
